ABOUT KARIEGA STEEL SOURCING

Kariega Steel Sourcing (Pty) Ltd is a steel and engineering buying house based in Kariega, Eastern Cape. We connect industrial buyers with mills, stockists and specialist processors, coordinating supply from your initial specification to delivery.

Specification-led

Material and processing sourced to your drawing, grade and application.

Coordinated supply

One point of contact for suppliers, processing and delivery.

Direct access

Work directly with Earl O'Grady, an experienced technical buyer.

CORE CAPABILITIES

Steel plate & profile cutting.

Full plate supply or profiles cut to your drawing, with the process matched to the material, thickness and specified tolerances.

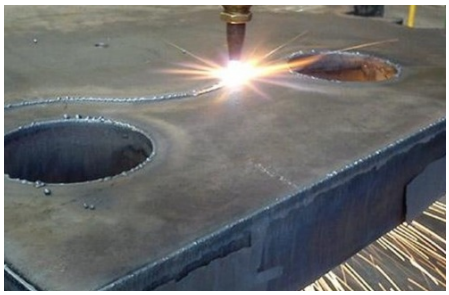

LASER CUTTING

Detailed plate profiles

PLASMA CUTTING

General fabrication profiles

FLAME CUTTING

Heavy carbon steel profiles

MATERIALS WE SOURCE

Structural	S355JR+AR · S355J2+N · 300WA · 350WA
High strength	S690QL · S700MC · S420MC · S500MC
Wear resistant	VRN400 · Hardox® 400 / 450 / 500 / 600 / HiTuf CCO overlay plate
Pressure vessel	ASTM A516 Grade 70

TYPICAL COMPONENTS

Base plates · Brackets · Gussets · Flanges and rings

Wear liners · Discs · Machining blanks · Custom profiles

Additional grades on request. Material availability, cutting method, tolerances and lead time are confirmed at quotation.

MATERIALS & VALUE-ADDED SERVICES

Bar supply & specialist processing.

Solid bar

Carbon and alloy engineering steels for shafts, pins, gears and machined components.

EN3A · EN8 · EN9 · EN14B · EN19
EN24 · EN26 · EN30B · EN36B

Hollow bar & tube

Hollow bar for bushes, sleeves, rings and cylinders, plus structural tube on request.

ST52 · EN8 hollow bar
S355J2H tube

Full lengths or cut to size. Diameters, wall thicknesses, supply condition and availability are confirmed against your requirements.

MACHINING & FABRICATION

We coordinate machining and fabrication through specialist partners, linking material supply with the processing your drawing requires. One enquiry can cover raw material, cut blanks or finished components.

SPECIALISED SURFACE TREATMENTS

QPQ Salt bath treatment	**HVOF thermal spray** Wear-resistant coatings	**Electroless nickel** Uniform nickel deposition
Nickel plating Protective surface finish	**PVD coating** Thin, hard coatings	**TD coating** Tooling surface treatment

WORKING WITH KARIEGA STEEL SOURCING

Technical sourcing. Personal accountability.

Earl O'Grady

FOUNDER

20+ years in procurement, materials and supply chain across oil & gas and automotive manufacturing.

- CQI & IRCA Certified Lead Auditor; supplier qualification and audit experience.
- B-Tech: Logistics, Nelson Mandela University.
- Working knowledge of API Q1, ISO 9001:2015 and NACE MR0175 / ISO 15156.

FROM ENQUIRY TO DELIVERY

01

Send your scope

Drawings, bill of materials or technical specifications.

02

Receive a quote

We confirm material, processing, price and lead time.

03

We coordinate

Your approved scope is managed through our supplier network.

04

Receive your order

Delivery and agreed documentation are coordinated with you.

FOR A COMPLETE QUOTATION

- Drawing or bill of materials; include revision
- Material grade and supply condition
- Plate thickness or bar dimensions and cut lengths
- Quantities, tolerances and processing requirements
- Required certificates and inspection requirements
- Delivery address and required delivery date

SEND US YOUR NEXT RFQ

Let us quote.
